Dear Sir;

The Fairfield Council records show that you are the owners of the property at Brisbane st. St Johns Park.

We have purchased the block of land next to you last year ( lot 121 Brisbane st, St Johns Park) and as you are aware there is no acceptable fencing erected on the boundary between your property and ours. We feel that a fence must be built due to vandalism in the area and for security reasons.

Consequently we have obtained a number of quotes and are submitting a copy of the lowest quote, to you for your records. We would very much like you to meet our neighbouring obligations and satisfy your half share of the cost for the fence, which borders with you and is 160 meters in length.

The type of fencing proposed is chain wire with barbed wire top, as per the quote. The cost is \$ 15.00 per meter or 2400 dollars for 160 meters and we estimate your share to be \$ 1200.00

As this is a very important matter for us and the quote is very reasonable and only valid for 30 days, please inform us as soon as possible of your intentions.

Yours Faithfully

Dear Sir/Madam,

Re: Lot A DP 372894 Brisbane Street, ST. JOHNS PARK.

Receipt is acknowledged of your correspondence dated 6th August, 1985 the contents of which have been noted.

You advise that 'some work has been carried out' to the car park area however, in this regard, the actual work undertaken is required to be elaborated.

Also, the consent dated 15th September, 1983 required, inter alia;

"Submission of the following details, and approval by Council prior to commencement of work:-

- a. Internal drainage details including pipe sizes, discharge points, natural and finished surface levels, invert levels of pipes and stormwater calculations.
- b. Details of stormwater disposal to Council's stormwater system.
- c. Existing and design contours over the whole site.  
Council's Subdivision Section should be contacted in regard to these details.

It is considered the situation is unsatisfactory given the time which has elapsed subsequent to issue of approvals and should the club continue to operate outside the guidelines stipulated, Council will have little alternative than to commence legal action in relation to non compliance with Development consent conditions.

You are again requested therefore, to submit to Council a work programme with a view to full compliance with Council requirements to include roadworks, kerb and gutter, drainage, access, car park, landscaping etc.

The above is referred for your urgent attention.

Yours faithfully,

Dear Sir,

I am pleased to be able to inform you of Council's intention to conduct the second Fairfield City Games from 4th - 14th April, 1986.

The 'Games' are a community sporting and recreational event and I sincerely hope that your members will be able to participate in, and enjoy, the many sports and games which will be included in the programme.

May I draw your attention to the Bocce and Scoop (Scopa) competitions which may be of particular interest to members of your Club. Both of these competitions will be conducted at the Club Marconi and I have enclosed a number of entry forms, for distribution to your members who may be enthusiasts of these pastimes.

Entry forms for all participating sports will soon be available and it would be appreciated if copies of these could be made available at your Club premises. Preferable locations would be the foyer or sports lounge. By allowing your Club to be an outlet for 'Games' entry forms, your members will have access to a wide range of information and Council will be assisted in its efforts to involve as many members of the Fairfield community as possible.

If you are able to assist us with distribution of entry forms, please contact the 'Games' Co-ordinators, Mr. Ken Hastie or Mrs. Kay Peters, telephone 609.0913.

## TO THE HOUSEHOLDER

Council has introduced a monthly collection of recoverable waste materials such as paper, cardboard, bottles and glass.

Enclosed is a calendar indicating the dates on which Council's authorised recycling merchant will be calling at your premises each month to collect these materials.

Council supports the concept of recycling and specifically requests that in future all paper, cardboard, bottles and glass be held for the recycling merchant rather than being placed in the garbage bins.

These items should be placed on the footpath on the evening prior to the nominated date of collection.

To ensure the success of this recycling programme, Council needs your support.

# BUILDING AND DEVELOPMENT COMMITTEE

## AGENDA

Date of Meeting: 29th January, 1986.

Page Number: 151A

### SUBJECT

Non compliance with conditions of development consent.

Property: Lot A, D.P. 372894, Brisbane Road, St. Johns Park.  
Owner: Triglav Club Ltd.  
Zoning: Community Uses 5(A).  
File: 03553-85900.

### SUMMARY

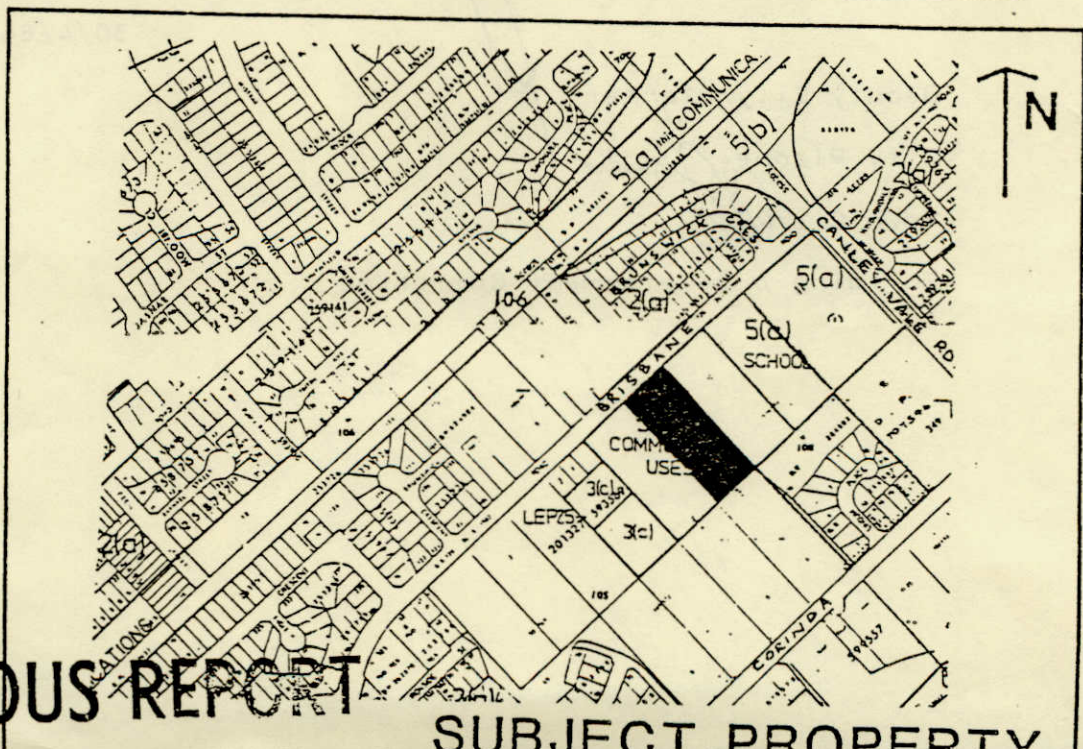

Consent was issued in 1975, for erection of a club subject to compliance with conditions, one of which required construction of an off street parking area (indicated on plan) which accompanied the development application.

The club premises have been operating without the car park facilities for some time, however other requirements such as half width road construction, kerb and gutter construction, landscaping, suitable access, etc. are unsatisfactory and in this regard, the club has been requested to proceed with work to comply.

To date, little change has taken place to the development and the club is continuing to operate.

It is the recommendation of this report that injunction proceedings be instigated in respect of the outstanding consent conditions.

### REPORT BY DEVELOPMENT CONTROL OFFICER, MR. K. COLLINS

Approval was issued to develop the site for club premises in 1975 with conditions of consent requiring, inter alia, the following:-

- a. The driveways and carparking areas are to be suitably constructed, sealed and drained to Council's Chief Engineer's requirements.
- b. Landscaped areas shall be separated from driveways and car parking areas by means of a 150mm high kerb wall. All landscaping shall be maintained to the satisfaction of Council. Expanses of car parking areas shall be broken up wherever possible by landscaping strips.

In September, 1976 an extension to the development approval was granted subject to compliance with requirements of the 1975 consent and subject to the following:-

"Construction of half width of Bibby's Road to Council's standard specification for residential roads for the full frontage of the premises. This work shall be carried out at no cost to Council."

In relation to the requirements for provision of a parking area, a further development consent was issued in September, 1983.

This approval was required due to the alteration to size and location of the building, when the club was finally erected.

Subsequently, the club has continued to operate without compliance with conditions of the original consent, as well as the most recent consent (for construction of the carpark).

The club has been advised of its obligation to comply with the consent conditions, the only response being;

"We would like to notify you that some work has been carried out and is still in progress".

In response to this advice, it was requested that details be supplied of actual work 'carried out' and for a programme aimed at full compliance, to be referred to Council.

This request was made in August, 1985. To date there has been no response to the request and it is noted no work is currently in progress and little change has been effected.

### RECOMMENDATION

**Re: Lot A D.P. 372894 Brisbane Street, St. Johns Park.**

Reference is made to previous correspondence concerning the club premises and to outstanding condition of development approval issued for the club.

It is advised that a report concerning the outstanding conditions was referred to a meeting of Council on 5th February, 1986 when it was resolved to defer the matter and that representatives from the club be invited to discuss this matter at a Building and Development Committee meeting in near future.

In this regard, you are requested to contact the City Planner or his Secretary (6090344) to confirm which meeting members will be attending.

For your information the next two (2) Building and Development Committee meetings are scheduled for 19th February and 12th March, 1986.

Dear Sir/Madam,

RE : FAIRFIELD SPORTS AID FOUNDATION

## OFFICIAL LAUNCH INVITATION

Fairfield City Council is proud to announce the official launching of the first local level Sports Aid Foundation in Australia.

The Commonwealth Government has created The Australian Sports Aid Foundation (ASAF) to compliment existing methods of fund raising by providing tax incentives for benefactors of sport. Donations to the Foundation may be claimed as a tax deduction. The Fairfield Foundation will act as a catalyst at the local level.

The Fairfield Sports Aid Foundation has been established by Fairfield City Council in order to recognise the achievements of local sportsmen and women and to provide assistance so that they are given encouragement and the opportunities to achieve their full potential.

The Foundation has been established with the prime task to raise funds for the development and encouragement of local sportspersons. All funds received will be allocated to individuals, clubs and/or teams who will benefit from direct financial assistance to further their sporting abilities. Donations received will not be used for administration expenses.

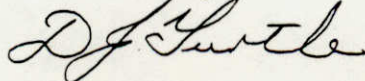

In order to provide a recognised starting point of the Foundations operations a presentation dinner has been arranged on Friday the 18th September, 1987.

Two representatives from your organisation are invited to attend the Launch.

You are requested to confirm your organisations attendance by contacting Ms. Lila Sawko on 609-0268 by Tuesday, 15th September, 1987.

Yours sincerely,

A handwritten signature in cursive script, appearing to read "Don Turtle".

Dear Sir/Madam,

I am writing to seek your co-operation in a project currently being undertaken by Council. This project has been funded by the Commonwealth Government and will be completed by mid May.

Fairfield City within its population of 154,000 has a large number of people of non-English speaking background. The Council has for a number of years been aware of the needs of the mixed backgrounds of our community and has made many attempts to assist.

Council would like to find out how successful Council has been and hear your views and opinions on what needs to be done in the future.

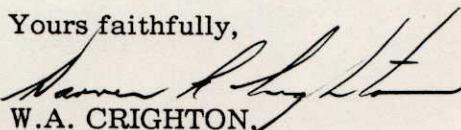

Council has employed Eyles Miltenyi Davis Pty. Ltd., (EMD) as researchers for this project. Liz Davis and George Miltenyi will be talking to groups, residents, government departments, clubs and individuals who want to comment on our past involvement.

It would help the project if you could reply to the sheet of questions attached to this letter. If there is someone in your organisation who has lived in Fairfield for a while and is aware of some of the actions Council has taken or has some suggestions for future directions, we would be especially keen to have their opinions.

Your information will be treated confidentially and should be sent to EMD directly at: 41 Washington Street, Bexley, 2207 by 12th February. Please feel free to write as much or as little as you wish and if you have any comments to make which are not mentioned on the sheet, these would be appreciated.

It is hoped you can help Council in this matter.

Yours faithfully,
